

Kevin Kellar

COMPUTER SCIENCE UNDERGRADUATE (GRADUATING SPRING 2021)

4438 NW Boxwood Drive, Corvallis OR, 97330

📧 kkevlar | 📞 541-224-6877 | ✉️ kellar@calpoly.edu

Objective

Six month Co-op in Computer Science or Software Engineering, starting Spring 2019

Education

California Polytechnic University

San Luis Obispo, CA

B.S. IN COMPUTER SCIENCE

Fall 2017 - Present

- Major GPA: **4.0** — Cal Poly Cumulative GPA: **3.91**
- Completed **Data Structures**, **OO Java**, and Intro To Computer Organization (**Assembly**)
- Finished **Systems Programming** (C programming in Unix environment) in Spring 2018
- Completion of Calculus Series (I - IV), Physics Series (I - III), and Technical Writing for Engineers

Work Experience

Dynamic Robotics Laboratory (II)

Oregon State University

RESEARCH EXPERIENCE FOR UNDERGRADUATES (REU)

Summer 2018

- Developed **Cassie Trajectory Editor**, a tool to manipulate walking gaits for the bipedal robot Cassie
- Wrote C in Ubuntu Linux to link with C++ libraries such as **MuJoCo Physics Simulator** and **GLFW**
- Developed an **Inverse Kinematics engine** to solve leg joint positions for a user-defined foot target position
- Self-taught **Matplotlib** in Python for visualizing subtle differences robot trajectories and solver outputs

Dynamic Robotics Laboratory (I)

Oregon State University

HIGH SCHOOL RESEARCH ASSISTANT

Summer 2017

- Completed projects in Arduino, Teensy, Unix, and VR by **independently learning C**
- Assisted in robotics research in the field of path planning, decision making, and teleop controls
- Documented the finished software tools and wrote setup instructions for use within the organization

Electical Engineering and Computer Science Department

Oregon State University

APPRENTICESHIP IN SCIENCE AND ENGINEERING

Summer 2015

- 300 hours of software development and computer skills experience
- Co-Contributor of **ICST research paper** "TSTL: the Template Scripting Testing Language"
- Self-taught basic shell scripting and using Linux-based systems as a development platform

Programming Skills

Git Developed **dozens of GitHub projects**, resolved complex merge conflicts, and used issues / pull requests

Android Published **two Android applications** to the **Google Play Store**, and learned to use XML for interface design

Networking Developed two networked Java applications: a simple chat room and a **multi-user Android app**

Python Wrote a **Self Learning** Tic-Tic-Toe program in Python, which learns as the user plays against it

Data Structs Comfortable writing and using **hashtables and priority queues** in Java, C, and Python

Unix Shell Comfortable scripting with Unix programs such as sed, grep, and conditionals for simple tasks

GCC / Make Developed over a dozen Unix C projects using **memory management**, **raw pointers**, and **complex Makefiles**

Arduino Written Arduino/Teensy sketches including a simulated xbox controller and **autonomous robot drive code**

SSH Built a **home file server**: experience with ssh server setup, ssh tunneling, and RSA key setup

Security Involvement with Cal Poly WhiteHat, competing in frequent Capture-The-Flag cybersecurity challenges

Honors & Awards

EXTRACURRICULAR

2018 **1st Prize**: Roborodentia: Cal Poly's Autonomous Robotics Competition

Cal Poly, SLO

2018 **2nd Prize**: Winter SLOHacks: Developed a networked Android application

Cal Poly, SLO

ACADEMIC

2017 **Green & Gold Merit Scholarship**: Contribution to University's academic life

Cal Poly, SLO

2013 **Best in Class**: AP Computer Science, Singapore American School

SAS, SG
